New Year, New Rules

Several new rules affecting the transportation industry either went into effect at the first of the year or are soon to go into effect in 2016. Here’s a brief overview of the changes you should be aware of.

**Driver Coercion Rule Issued**

Fleets, shippers and brokers could face big fines if they violate the Federal Motor Carrier Safety Administration’s (FMCSA) Hours-of-Service rules and various other safety regulations included in the new driver Coercion Rule.

Violators of the Coercion Rule could face up to $16,000 per violation or, in extreme cases, loss of operating authority. The Coercion Rule specifically notes that coercion not only includes forcing a driver to stay on the road after his or her maximum hours are used, but also coercing a driver to violate commercial driver license regulations, drug and alcohol testing rules and hazardous materials regulations.

The driver Coercion Rule goes into effect January 29, 2016.

**Final ELD Rule**

The FMCSA has announced the long-awaited final ELD rule which requires drivers to use electronic logging devices (ELD) to record drivers’ Hours of Service. The rule details new technical specifications for ELDs, clarifies supporting-document requirements and includes measures aimed at ensuring ELDs are not used to harass drivers. The rule requires that drivers adopt ELDs by December 18, 2017.

**CARB Regulations**

Landstar BCOs and third party capacity providers entering California must be in compliance with the California Air Resources Board (CARB) new regulations. The new CARB regulations apply to tractors and trailers owned by BCOs or third party providers in order to travel into the state of California.

**Tractor Compliance options:**

• Tractor must have a 2007 or newer engine or have a Particulate Matter (PM) filter installed.

• Proof that the vehicle owner obtained a Low Use Vehicle Exemption from California permitting 1,000 miles of travel in the state per calendar year.

• Owners can also obtain proof of a Three Day Pass, which exempts one vehicle for three consecutive days of travel in California per year.

**Trailer Compliance requirements:**

• Aerodynamic devices are currently required on all 53’ box-type trailers, including dry-van and refrigerated van trailers (reefers).

More information on CARB requirements can be found on LandstarOnline.com in the News and Announcements section.

FAST Act
The final version of the 5-year highway bill dubbed the FAST Act was passed by congress in December 2015. Fixing America’s Surface Transportation (FAST) Act is the first law of its kind to be enacted in over ten years.

The FAST Act provides long-term funding certainty for transportation projects, but also changes some major rules and regulations in the trucking industry.

CSA Reform: The FAST Act removed the majority of information from Department of Transportation’s (DOT) Compliance Safety and Accountability (CSA) Safety Measurement System. Including the removal all non-preventable crashes from the Safety Management System and required the major components of the CSA scoring and ranking program to be removed from public view. The FAST Act required the FMCSA to completely revamp CSA’s program prior to making scores public again. Portions of the CSA’s SMS were republished for public view in January.

Hair Testing: The highway bill allows the testing of driver’s hair in lieu of a urine drug screen. The Department of Health and Human Services has one year to establish guidelines for hair testing within the FAST Act.

Beyond Compliance: This directs the FMCSA to establish a program as part of CSA to allow recognition and an improved Safety Measurement System percentile for carriers and drivers who install advanced safety equipment or adopt other fleet safety management programs.

Heavy Specialized Hauling/Intermodal Realignments

The New Year brings a few noteworthy changes in responsibilities. Rusty Cody has been promoted to Vice President of Heavy Specialized Hauling and Intermodal, reporting to John Collins, Executive Vice President of Specialized Freight Services.

Cody’s responsibilities have expanded to encompass Heavy Specialized services in addition to his continued involvement in Intermodal services. Since joining the company in May of 2008, Cody has played a significant role in the growth of our Intermodal load volume, increasing our customer base and agent involvement.

In connection with this realignment, Jackie Croft has been promoted to Director of Intermodal services. Her ongoing commitment in the support of our agents and their customers was demonstrated with the successful launch of our intermodal pricing tool and the successful initial launch of the street turn program. Croft will be responsible for executing the day-to-day and long term operational growth strategy of the Intermodal services group. She joined Landstar in 2003 and was promoted to Manager of Intermodal in 2010.

Also reporting to Cody are: David Phillips, Vice President of Specialized Transport Sales; Mark McCoy, Vice President of Specialized Transport Sales; Dan Workman, Director of Heavy Specialized Operations; Kyle Abbott, Director of Heavy Specialized Support Services and Robert Thomas, Director of Operations, Westinghouse Project.

The other organizational change of note is the combination of Regions 8 and 9 under the leadership of Region Vice President Matt Dannegger. The new territory, now referred to as Region 8, includes the states of California, Washington, Oregon, Idaho, Utah, Montana, Colorado, Arizona, Nevada, New Mexico and Wyoming.

Jim Jordan, former Region 8 Vice President, will be retiring in May. Jordan will assist with the transition and stay on in a sales and agent development function until that time. Thanks to Jordan for his many years of service and congratulations to all.
Utilization of the Landstar Connect app for shipment updates is growing quickly as increased customer demand for shipment tracking continues.

Thanks to our agents and drivers for the ongoing feedback used to make enhancements, and keep an eye out for more in the near future.

If you’d like to contribute feedback to or have questions for the Account Management department about Landstar Connect, please email connect@landstar.com or call 866-440-9161.

Trucking Industry Defense Association Honor

Recently retired Landstar Vice President of Risk Management for Automotive and General Liability Bill Burns received a top honor from the Trucking Industry Defense Association (TIDA). In October, 2015, Burns received the John T. Biezup Memorial Service Award. The award was created to honor TIDA charter member John Biezup, who died suddenly in 1994. Biezup was a partner in the Philadelphia law firm of Palmer, Biezup and Henderson. Annually, the TIDA Board of Directors chooses a TIDA member whom they believe best exemplifies the lawyer’s spirit of tireless dedication to the client, the TIDA and the trucking industry in general.

In 2011, Burns earned the Jeffrey C. Crowe-Robert E. Zonneville Lifetime Achievement Award for his nearly 40 years of service to Landstar which often included dealing with claims, the legal system and distraught families. ★

Fritts Appointed to the Commercial Motor Vehicle Review Board

Congratulations to Landstar Field Safety Manager Jared Fritts for his appointment to Florida’s Commercial Motor Vehicle Review Board. Fritts was honored by Florida Governor Rick Scott in November after applying for a vacant seat on the Commercial Motor Vehicle Review Board (CMVRB).

The CMVRB reviews penalties imposed upon drivers while considering testimony and other evidence that could support modification, cancellation or revocation of those penalties under Florida Statutes.

Fritts’ term on the board began November 10, 2015. He will serve through September 30, 2017.

In addition, Fritts is currently serving as Chairman on the Safety Management Council of the Florida Trucking Association. ★

LSO LSOs of the Month

Congratulations Sheri Christy of the SAL agency in Salina, Kansas. Christy was selected as the October 2015 LSO of the Month for the incredible amount of passion she has for Landstar, BCOs and her customers! Every year for the last 19, SAL has hosted Safety Night at the Races. Christy says they hold the event because it gives SAL an opportunity to show BCOs gratitude. The SAL agency puts safety first, consistently executing safe and accurate dispatch, which shows in its claim free results.

John Murphy with the GTP agency was selected as the November 2015 LSO of the Month. When Murphy and his Tampa, Florida agency hosted their annual BCO safety meeting, nearly 40 BCOs attended. Murphy not only attends all the LSO and BCO safety meetings in his area, but he also conducts M.U.S.T. customer visits and never misses a Safety Thursday Conference Call. GTP has an outstanding safety record - in 2015 GTP had no preventable BCO accidents or cargo claims.

Congratulations to Don Horne of the MES/MEW agency in Sulphur Springs, Texas. Horne was selected as the December 2015 LSO of the Month. He attributes his success to the Complete and Accurate Dispatch system in his agency. Horne and his agency participate in every Safety Thursday Conference Call and attend LSO meetings every year. Over 800 BCO loads were transported for MES/MEW in 2015 and none of them involved a cargo claim or preventable accident.

Know a Landstar Safety Officer who has gone above and beyond to promote safety and deserves to be LSO of the Month?

Let us know. Email your nominations for LSO of the Month to safety@landstar.com or contact any Landstar field safety manager.

Safety Lunch in St. Augustine

Dozens of Landstar BCOs joined at the St. Augustine Orientation Center in December for the final Safety Thursday Conference Call of 2015 and the Landstar Holiday luncheon.

December’s safety topic was Health and Wellness, and many members of the Landstar family called in with their tips on eating healthy and getting the right amount of sleep and exercise while out on the road.

After the safety call, there was a drawing for random prizes given out to BCOs who attended the luncheon at the St. Augustine Orientation Center. The winner of the grand giveaway prize rolled into the New Year with a new set of tires! ★

The Difference a Load Makes

A new orientation class is showing new Landstar Business Capacity Owners how to find a load, maximize their revenue and understand the difference just one extra load can make. This hands-on orientation class is revenue focused and concentrates on teaching new BCOs the importance of hauling an additional load at the end of the week, month or year, and how vital that one load can be to their success as an independent owner-operator.

The class utilizes live load board data to show new BCOs that improving their “top line” will inevitably improve their bottom line. The two day classes are being held Monday through Thursday in the Indianapolis, Indiana orientation center.

Existing BCOs who are interested in learning more can send an email to bcobizhelp@landstar.com or call 1-866-205-9123. ★
Landstar Donates 126 Bikes for Jacksonville Tykes!

Hundreds of children in Jacksonville, Florida, received a set of new wheels in 2015 thanks to the generous donations by Landstar employees. Wet weather didn’t dampen anyone’s giving spirit as the 126 bikes were delivered and unloaded at Jacksonville’s Child Guidance Center in December. Landstar Project Manager Ken Perry, Landstar BCO Jimmy John, and Landstar Vice President of Information Technology Sid Sutphin delivered and unloaded the bikes at the Child Guidance Center which is a private, not-for-profit organization serving the needs of children, adolescents and their families in northern Florida since 1951. Landstar began working with the center in 1990. ★

Elves Make Holiday Book Delivery

Landstar elves in Rockford, Illinois, were very busy during the 2015 holiday season. Keeping up tradition, employees in Rockford raised funds to buy books for the children at Riverdahl Elementary School. In fact, Landstar raised enough money to purchase 560 books - one for every child at Riverdahl.

Thanks to Santa’s helpers Diane Henson, Heather Johnson and Rhonda Hall for delivering the books in December - just in the “St. Nick” of time. ★

**DRIVE FOR FIVE**

When it comes to safe driving, Landstar believes it is important to expect the unexpected and always have “an out.” Maintain sufficient space around your vehicle. Check your blind spot mirrors, using the lean and look method every 3-5 seconds. Choose to drive safe and legal. Protect the zones around your truck and 

**DRIVE FOR FIVE** - yourself, the vehicle directly in front of and behind you, and to each side of you.

**Behind You:**
Help prevent rear-end collisions, by maintaining a safe speed and avoid sudden stopping.

**On Your Side:**
Limit changing lanes and stay in the right lane whenever possible.

**In Front Of You:**
Remember safe speed and proper following distance prevent rear-end collisions and jackknife accidents.

**Just imagine family and friends occupying those other vehicles around you.**
